Senior GRC Engineer & Technical Program Manager

Cloud & GRC Security Leader

SUMMARY

Cybersecurity leader with 8+ years of progressive experience securing highly regulated systems, including 2+ years leading vulnerability management and compliance programs across AWS and large-scale infrastructure. Achieved a 63% vulnerability index reduction in 60 days for \$7B AWS systems by automating patch workflows and aligning remediation with business priorities. Skilled in cloud security automation, cross-functional influence, and data-driven risk reduction that accelerates secure delivery.

CORE EXPERTISE

- **Cloud Security:** AWS (Config, Security Hub, SCPs, IAM), IaC (CloudFormation)
- **Risk & Compliance:** Vulnerability Remediation, NIST 800-53, Audit Readiness
- **Security Automation:** Workflow automation (PowerQuery, AWS CLI, CloudFormation); Python for scripting
- **Leadership & Delivery:** Program Management, Cross-Functional Influence, Executive Reporting

SELECTED IMPACT

- Cut vulnerability index **63% (10.63 → 3.89)** in 60 days for AWS-hosted financial system generating **\$7B annually**.
- Automated vulnerability reporting workflows using PowerQuery and Excel, reducing prep time **80%** and accelerating patching by **1–2 days weekly**.
- Prevented loss of system authorization by reversing non-compliant policy at executive level, preserving continuity for mission-critical environments.
- Authored **18 governance SOPs**, standardizing compliance and improving audit readiness.
- Restored **438 critical systems** during an outage, re-establishing communications for **15,000+ global flights**.

EXPERIENCE

June 2025 – Present

AWS Security & Compliance Manager – Yakshna Solutions Inc

- Secures AWS-hosted financial transaction systems processing \$7B annually.
- Reduced environment **vulnerability index by 63%** within 60 days through targeted remediation and automation.
- Remediated **56 critical vulnerabilities in 90 days** while maintaining authorization and uptime.
- Detected and mitigated PII exposure in CI/CD pipelines; implemented enhanced data protection controls.
- Collaborated with compliance officers and auditors to sustain continuous regulatory compliance (NIST, SOC2-like standards).

Oct 2023 – June 2025

Senior Cybersecurity Program Manager, GRC – US Air Force

- Managed cybersecurity and compliance across **34,000 systems / 16,000 users** for \$350M infrastructure.
- Achieved **100% patch compliance** on 4,000+ endpoints, improving auditor rating from **High → Moderate**.
- Prevented **de-accreditation of two critical enclaves** by reversing non-compliant policy.
- Oversaw **2,000+ NIST controls** and closed **10+ audit findings** under tight deadlines.
- Mentored analysts, boosting GRC output and consistency **~60%**.

July 2019 – Oct 2023

Senior Manager, Cyber Defense & IT Operations – US Air Force

- Provided mentorship and technical direction to a **21-person team** protecting global air operations and logistics.
- Executed patch campaigns achieving **100% compliance** on high-severity vulnerabilities.
- Restored encrypted communications during outage affecting **15,000+ users**.
- Supported evacuation of **124,000 personnel** by deploying secure planning systems under crisis conditions.

Sep 2018 – June 2019

IT Support and Asset Continuity Specialist (contract) – NNDATA & 22nd Century Technologies, Inc.

- Hardened 1,500+ devices under FISMA standards; enforced encryption and baseline compliance.

Oct 2017 – Sep 2018

IT Help Desk Analyst – Freedom Federal Credit Union

- Implemented IAM/RBAC controls for \$270M financial institution, enhancing access security and continuity.

Nov 2017 – Jan 2018

Cybersecurity Instructor (contract) – Harford Community College

- Delivered cybersecurity fundamentals training to 40+ adult learners preparing for certifications.

PROJECTS

- **AWS CloudFormation Security Template:** Deploys secure S3 bucket architecture (<https://github.com/TravDunc/AWS-CloudFormation-Secure-S3-Bucket/>).
- **AWS Security Development:** Projects leveraging AWS Config, Security Hub, and IAM governance.
- **Azure Security:** Hardened environments with NSGs, Key Vault, and Sentinel monitoring.
- **Compliance Automation:** Automated audit evidence compilation using PowerQuery.

CERTIFICATIONS & EDUCATION

CISSP | CCSP | CISM | CGRC (CAP) | CBCP

Western Governors University

Master of Science, Cybersecurity & Information Assurance – 2023
